Frank E. Langley, Publisher.

Entered at the postoffice at Barre as second class matter.

TUESDAY, MAY 2, 1905.

The average daily circulation of the Barre Daily Times for the week ending Saturday was

3,400

copies, the largest paid circulation of any daily paper in this section.

In the language of Pliny it was "brite and fair" this morning.

Burlington has also chosen the same man for city engineer and water superintendent, as Barre did recently.

An exchange wishes a discontinuation of the observance of Arbor Day. As far as Barre is concerned it has been discontinued. The postoffice employees were the only ones to observe the day.

Another incident happened in Warsaw yesterday when the soldiers shot down nearly several score of people. It is of such incidents as this that life in Warsaw consists largely nowadays.

A Montpelier newspaper man mixes up poetry and saloons in the following description of the resumption of liquor traffic in that city yesterday:

"The opening in Montpelier came in as quietly as the dawn of morning and nobody, who didn't know, would have surmised there was anything more attractive than a hardware store on the street."

There is nothing like being accustomed to a thing.

Only in the city of Washington was there yesterday a celebration to any extent of Dewey's deed in Manila Bay on May 1, 1898, when the Vermonter smashed the Spanish fleet before breakfast; and that celebration in Washington had to be carried out by a society which was formed with the famous victory as a basis, the Society of Manila Bay. But Dewey feasted on the admiration of the people while it lasted. Now the fickle public has turned away. However, those who are able to think of Dewey without prejudice give him credit for what he has done. It is noticeable that Montpelier, the birthplace of the famous naval hero simply shrugged its cold shoulder.

The automobile of Eli J. Tiffany was considerably damaged by fire Thursday evening at Bennington. Mr. Tiffany was in the barn getting the machine ready for use, when the gasoline ignited, setting both the automobile and barn on fire. The flames were extinguished in a short time, without much damage to the barn.

BEAUTIFUL MONUMENT UNVEILED

Erected in National Cemetery at Arlington for Spanish War Nurses.

Washington, May 2.—The beautiful monument to the American nurses who gave their lives as the result of their labors during the Spanish war was unveiled at the Arlington national cemetery this afternoon. The funds for the memorial were raised entirely among the membership of the national association of Spanish-American war nurses which is holding its annual convention here.

The delegates attended the unveiling in a body. The orator of the day was Mrs. Donald McLean, president of the national society of the Daughters of the American Revolution.

DAMES AND DAUGHTERS.

Fanny Crosby, the hymn writer, has completed her autobiography, which will be published the coming summer. Eugene Mantell, for many years a grand opera prima donna, has retired from the stage and will become a resident of Chicago in the autumn.

The death is announced at Edinburgh in her eighty-second year of Mary Anne Cadell, eldest daughter of Sir Walter Scott's latest publisher, Robert Cadell.

Mrs. William Thaw of Pittsburg has donated to MacAllister college, at St. Paul, Minn., a tract of land valued at \$32,000 to be added to the grounds of the institution.

Miss Caroline S. Orne, who recently died at Cambridge, Mass., was a friend of James Russell Lowell and Henry W. Longfellow. The latter spoke highly of her poetic talent.

Miss Helen A. Knowlton of Rockland, Me., is the only woman lawyer in that state. She was admitted to the bar of Knox county six years ago and has acquitted herself well in the practice of law.

Marchioness Oyama, wife of the Japanese Napoleon, is an expert fencer, swimmer and horsewoman. As a student of botany, zoology and foreign languages she is in the first rank. She is the foremost authority in her country on Shakespeare.

Mrs. James Allison of St. Paul has received from Baron Sannojiya, grand master of ceremonies for the emperor of Japan, a letter highly commending a poem which she recently wrote. The verses are in English, but in conformity with Japanese construction.

A Strange Whim.

A strange whim was that of an officer in the English army who could not sleep if his toothbrush and himself occupied the same apartment.

To Keep Cream.

A tablespoonful of powdered sugar stirred into a bottle of cream will put off the souring process for at least twenty-four hours provided the cream is kept near the ice.

Sickroom Don'ts.

Don't go into a sickroom when very hot, and don't sit between the patient and the fire, if there be one in the room, as the heat attracts any infectious vapor.
